Section III

1. Claim 7 relates to subject-matter considered by this Authority to be covered by the provisions of Rule 67.1(iv) PCT. Consequently, no opinion will be formulated with respect to the industrial applicability of the subject-matter of this claim (Art. 34(4)(a)(I) PCT).

Section V

2. Having regard to the prior art cited in the International Search Report, the subject-matter of claims 1-7 meets the requirements of Art. 33(2) PCT.
3. An inventive step (Art. 33(3) PCT) can be acknowledged on the basis of the findings reported in the description page 4, line 4 to page 5, line 14.
4. Claims 1-6 meet the requirements of Art. 33(4) PCT.
5. For the assessment of the present claim 7 on the question whether it is industrially applicable, no unified criteria exist in the PCT Contracting States. The patentability can also be dependent upon the formulation of the claims. The EPO, for example, does not recognize as industrially applicable the subject-matter of claims to the use of a compound in medical treatment, but may allow, however, claims to a known compound for first use in medical treatment and the use of such a compound for the manufacture of a medicament for a new medical treatment.
